

The **Pack-All U1319E** brings a new dimension in machinery to the lower-volume/intermittent-use segment of the shrink packaging market. It combines the proven reliability of the **Pack-All U1319** line of unitized systems with the affordability of a basic machine designed for the low-volume user.

The **U1319E** provides greater capacity and range than competitive machinery, foreign or domestic and is the most cost-effective basic system available. Compared to many other machines, it has a larger seal area, a larger tunnel that allows a greater range of product applications, more heat-generating capacity and a powerful blower motor for superior air movement that produces excellent finished packages consistently. Incorporating such features as Pre-made seal wires and Automatic cool-down in addition to its 18-month warranty, the **American-made U1319E** offers more features for the money and is clearly the best value in entry-level machinery.

Call us today and let us help you increase your packaging productivity.

PACK-ALL MODEL U1319E

The **Model U1319E** is the newest addition to the Pack-All line of Unitized Shrink Packaging Systems. This system is designed and built to provide quality, reliability and productivity to the lower-volume and/or intermittent use customer. The U1319E combines the simplicity of a basic “no frills” system with many of the features found in the proven U1319 Series. It provides the benefits of **American quality** at the price of imported machinery, with an **18-month warranty** standard. The U1319E will efficiently shrink package a wide range of product applications and is clearly the **best value in a basic shrink system.**

Made in the U.S.A.

Easy to operate with simple controls.

U1319E Specifications

Seal Area: 13"W x 19"L

Tunnel Chamber: 8"H x 14"W x 20"L

Heat Generating Capacity: 2,000 Watts

Dimensions: 80.75"L x 20"W x 50.5"H
(54"H with optional casters)

Weight: 300 pounds

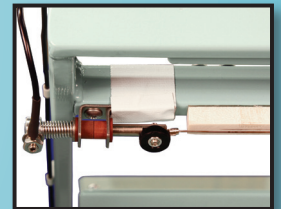

Power: 120V / 15A single power cord

THE NEW U1319E IS:

- **Economically Priced**
- Evolutionary Addition to Current Unitized Systems
- Engineered and Built to Last
(AMERICAN MADE)
- Energy Smart (Uses Standard 120V/15A Power)
- Easy to Operate with Simple Controls
- Easy to Maintain with Proven, Reliable Components
- Easy to Support with Readily-Available Parts
- Effective for Packaging a Wide Range of Products
- Efficient for Lower-Volume and/or Intermittent Needs
- Effective Use of Packaging Budget Funds
- Essential for Highest Quality at Lower Cost
- Exactly Right for Many Product Applications
- Exceptional Performance, Price and Warranty
- **Extraordinary Value!**

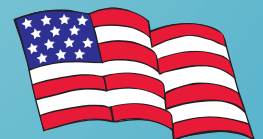

KEY FEATURES

- **American Design and Construction** for best workmanship and assurance of quality, consistency and availability of parts.
- **Pre-Made, Pre-Stretched, Quick-Change Seal Wires** assure fastest, safest, easiest wire changes and less down-time.
- **Automatic Cool-Down** assures proper shutdown of system, increasing production time and decreasing maintenance.
- **18-Month Warranty** provides coverage beyond industry standard of 1 year and increases value of the U1319E.
